Computer Engineering graduate from Universitas Diponegoro with a GPA of 3.75/4.00 (Cum Laude) and experience as an IT Support Intern at PT GS Battery Karawang Site. Experienced in troubleshooting and maintaining over 40 employee devices and developing a maintenance reporting dashboard using NocoBase. Possesses hands-on project experience in application development, database management, and IoT systems, with knowledge of JavaScript, PostgreSQL, React Native, and REST API integration. Demonstrates strong problem-solving skills, analytical thinking, and adaptability, with a strong interest in IT infrastructure, networking, and application support.

EDUCATION

Diponegoro University Semarang · Indonesia 2022 – July 2026
Computer Engineering · 3.75 / 4.00 Cum laude
Relevant Coursework

- **Mobile App Developer** — Grade A
- **Database System**— Grade A

RELEVANT PROJECTS

Personal Project September 2026 - September 2026
IT Asset & Maintenance Management System

- Developed a web-based application to manage IT assets and maintenance requests using React.js, Node.js, Express.js, and PostgreSQL.
- Implemented REST API endpoints, JWT-based authentication, and role-based access control for Admin and User roles.
- Built asset management and maintenance ticket features, including CRUD operations and maintenance history tracking.

Final Project Mei 2026 - July 2026
IoT-Based Health Monitoring System Using ESP32-S3

- Developed an IoT-based health monitoring system using ESP32-S3, BLE, WiFi, and UART to integrate medical devices with a real-time web-based system.

UMKMKeuanganApp July 2025 - August 2025
Financial Recording Application for Terasi Pak Kempung MSME

- **Developed** a mobile application**, "UMKMKeuanganApp,"** for Terasi Pak Kempung MSME using **React Native.**
